

SAMEER SAXENA

Aspiring Data Scientist | BCA Student

Shahjahanpur, Uttar Pradesh, India | +91 8738068749 | sameersaxena873@gmail.com | [LinkedIn](#) | [GitHub](#)

CAREER OBJECTIVE

Final-year BCA student at Invertis University with a strong foundation in Python, SQL, and statistical problem-solving. Seeking a Data Analyst role to apply data analysis, machine learning, and visualization skills to real-world business problems while contributing to a data-driven team.

EDUCATION

Bachelor of Computer Applications (BCA), Invertis University, Bareilly
CGPA: 6.7 (approx. 64%)

2024 – 2027

SKILLS

- **Programming Languages:** Python, SQL, C, C++
- **Data Analysis & Visualization:** Pandas, NumPy, Matplotlib, Seaborn, EDA, Statistical Fundamentals, MS Excel (Pivot Tables, Charts)
- **Machine Learning:** scikit-learn, Logistic/Linear Regression, Feature Engineering, Model Evaluation (Confusion Matrix, Classification Report, R^2 Score)
- **Databases:** SQL, MySQL
- **Web Fundamentals:** HTML5, CSS3
- **Tools & Platforms:** Google Colab, VS Code, Git/GitHub, Selenium WebDriver, Power BI, MS Azure (basics), MS PowerPoint/Word
- **AI/ML Exposure:** Generative AI concepts, Large Language Models (LLM) fundamentals, AI-ML virtual internship coursework

EXPERIENCE

CodeAlpha — Machine Learning Intern (Remote)

Jul 2026 – Present

- Built an Iris Flower Classification model using Logistic Regression, performing EDA and seaborn pairplot visualizations to analyze species separation, achieving 100% test accuracy.
- Developed a Car Price Prediction regression model on a 301-record used-car dataset, engineering an "Age" feature and handling missing values across pricing and categorical fields.
- Evaluated models using confusion matrix, classification report, and R^2 score, applying Python, Pandas, and scikit-learn throughout.

PROJECTS

Selenium Login Automation Testing

Aug 2026

- Built an end-to-end automated test suite using Python and Selenium WebDriver validating login flows, dynamic assertions, and error handling for wrong credentials.

Iris Flower Classification using Machine Learning

CodeAlpha Internship

- Performed EDA and seaborn pairplots on the Iris dataset; trained a Logistic Regression model with an 80/20 split, achieving 100% test accuracy across all three species.

Car Price Prediction using Machine Learning

CodeAlpha Internship

- Cleaned a 301-record used-car dataset and built a regression model to predict selling price from present price, mileage, fuel type, seller type, transmission, and age.

Student Database Management System (SQL, MySQL)

Individual

- Designed a relational database with CRUD operations and wrote SQL queries for filtering, joins, and aggregate reporting.

Sales Data Analysis using Python & Excel

Individual

- Cleaned and analyzed a retail sales dataset using Pandas to identify sales trends; built pivot tables and charts in Excel to visualize monthly revenue patterns.

CERTIFICATIONS

- **Data Science Master Virtual Internship** — AICTE, Ministry of Education, Siemens & EduSkills (Grade: Outstanding, 2026)
- **Machine Learning, Data Engineering, Applications & Use Cases, Platform Administration — Master Certifications** — RapidMiner (Altair)
- **Machine Learning, Data Engineering, Applications & Use Cases — Professional Certifications** — RapidMiner (Altair)
- **AI and Cybersecurity Awareness** — TCS iON, "AI for All" Initiative (Guinness World Records, 2026)
- **AI Tools & ChatGPT Workshop** — be10x (2026)
- **AI-ML Virtual Internship** — Google for Developers, EduSkills & AICTE
- **GenAI Powered Data Analytics Job Simulation** — Forage
- **Learning SQL Programming & Getting Started with Microsoft Azure** — LinkedIn Learning

SOFT SKILLS & LANGUAGES

Problem Solving, Analytical Thinking, Communication, Teamwork, Adaptability, Time Management, Quick Learner | English, Hindi
